

FAQ

VIVISCAL PROFESSIONAL

WHAT IS VIVISCAL PROFESSIONAL?

Viviscal Professional is a marine-derived nutritional supplement that has been scientifically tested for its effectiveness in helping to boost hair growth. This naturally based, pharmaceutical grade dietary supplement supplies vital nutrients needed to nourish thinning hair, promote hair growth and increase the hair's overall health and vitality. Viviscal is the world's most popular and most well-researched hair growth supplement and is recommended for both men and women.

HOW DOES VIVISCAL PROFESSIONAL WORK?

Many hair loss patients benefit from the addition of nutritional supplementation in their treatment regimen. Hair vitamins and supplements like Viviscal Professional are specially formulated to nourish thinning hair, while also creating a healthy environment for existing hair and hair follicles. By providing important nutrients to the hair follicles, they are able to safely support and maintain healthier hair growth.

HOW DO I TAKE VIVISCAL PROFESSIONAL?

Recommended dosage is 2 tablets per day. First tablet should be taken in the morning and the second should be taken in the evening with food.

WHAT ARE THE ACTIVE INGREDIENTS IN VIVISCAL PROFESSIONAL?

The key ingredient in Viviscal is the exclusive AminoMar marine protein complex combined with vital nutrients. This rich complex is packed with marine extracts and blended with organic horsetail—an organic form of silica from a plant extract, used to strengthen and revitalize lifeless hair naturally, and acerola cherry extract—one of the richest natural sources of Vitamin C, with highly-effective antioxidant properties.

ARE THERE ANY NEGATIVE SIDE EFFECTS WITH VIVISCAL PROFESSIONAL?

Viviscal Professional is 100% natural, chemical-free, gluten-free and chemical-free. There are no known side effects associated with Viviscal Professional, provided that the user is not allergic to fish or fish products.

WHEN CAN I EXPECT TO SEE RESULTS?

Healthy hair grows at a rate of ¼" to ½" per month, so as with any hair loss treatment, results take time. Most patients will start to notice a subtle and gradual difference in the quality of their hair after three to six months of use. Continued use is recommended.

Continued on other side.

FREQUENTLY ASKED QUESTIONS VIVISCAL PROFESSIONAL

IS VIVISCAL PROFESSIONAL FOR WOMEN AND MEN?

Yes, Viviscal Professional is a safe and suitable supplement for both men and women.

CAN VIVISCAL PROFESSIONAL BE COMBINED WITH OTHER HAIR LOSS TREATMENTS SUCH AS MINOXIDIL, FINASTERIDE, LASER THERAPY, PRP, STEM CELL TREATMENTS OR HAIR TRANSPLANTATION?

Yes. While Viviscal can be used as a stand-alone treatment, many patients maximize its effectiveness by adding it to a multi-therapy treatment plan. Many Bauman patients use Viviscal Professional in combination with compounded topical minoxidil Formula 82M, PRP Platelet-Rich Plasma treatments, hair transplantation, laser therapy, oral medications as well as other nutritional supplements.

HOW CAN I MONITOR MY PROGRESS WITH VIVISCAL PROFESSIONAL?

Hair grows slowly, so as with all hair growth treatments, it can take several months before results are measurable, and six to twelve months before it becomes visibly noticeable. Therefore, Bauman Medical recommends a complete hair loss consultation to

identify risk factors, administer diagnostic tests, microscopic evaluations and measurements with HairCheck to establish a baseline before beginning a Viviscal Professional regimen.

HairCheck is a quick, painless, and non-invasive hair density measurement that can be performed in the office or by a Bauman Medical Certified HairCoach once every 90 days. This will allow you to monitor your progress and better evaluate the efficiency of Viviscal Professional in treating your hair loss.

IS VIVISCAL PROFESSIONAL BETTER THAN VIVISCAL EXTRA STRENGTH?

Yes. In clinical trials Viviscal Professional significantly outperformed Viviscal Extra Strength in both hair density and diameter.

IMPORTANT CONSIDERATIONS

Viviscal Professional is not a drug, but rather a multi-supplement meant to be ingested to help healthy hair growth from within. As with any dietary supplement, if you are currently taking any medication, you should check with a physician before beginning use of Viviscal Professional. If under 18, pregnant or nursing, Viviscal Professional is not recommended. Should any adverse reactions occur, discontinue use immediately and see your doctor.
